

# What email domains are used for system notifications?

Published on 11/30/2016

These email addresses are used by inMotion to send system notifications:

**donotreply@inmotionnow.com** This is used when are receiving report subscription emails.

**jobstatus@inmotionnow.com** This email address is used to notify you when you have submitted a job launch request, your job launch request status has changed, or when the proof you submitted has completed the review process.

**newuser@inmotionnow.com** This is used to send out new users registration and password resets for users.

**project@inmotionnow.com** This email address is used for any project alerts including task notifications.

**proofavailable@inmotionnow.com** This is used when a reviewer is sent a proof to review or a job launch manager has a new job launch request available for review.
